NUMBER 86

350 Attend Homecraft Institute Opening

C. OF C. OFFICE IS MOVED

Quarters In Historical
Society Building
Occupied On Wednesday

The El Dorado County Chamber of Commerce was "picked up bodily" Wednesday morning in the lobby of Hotel Raffles and set down again in new quarters in the county Historical Building, on Sacramento Street.

"The new location," says Secretary Wallace M. Ripley, "will provide more working space for the greatly expanded activities and program of the chamber."

The building is being occupied jointly by the El Dorado County Historical Society and the Chamber of Commerce. Remodeling work is rapidly nearing completion and as soon as suitable show cases have been installed, the members of the historical society will commence to place on exhibit many of the historical items and relics that will be loaned by citizens of the county.

Miss Eleanor Roberson will also have a desk in the building and will assist the secretary in many of the clerical duties of the office. At the same time Miss Roberson will be available for public stenographic work, a service for which there has been a steadily increasing demand.

Secretary Ripley expressed appreciation for the many courtesies that have been shown over a long period by the Raffles Hotel in providing free desk space in the lobby of the hotel. The many other facilities of the hotel have been constantly available to the members of the chamber of commerce and this fact has been an important factor in the general expansion of the work of the chamber.

"Mind A Blank" Says Slayer

Jury In Russi Murder
May Decide Fate Of
Gardener Late Today

SACRAMENTO — Lloyd Wesley Smith, 62-year-old handy man, took the witness stand in superior court Tuesday to testify his mind was a blank during the time he seized a stick of stove wood and beat to death his employer, Grover Russi, Preport rancher, March 8.

Smith took the witness stand to defend himself against a charge of first degree murder in which the prosecution, conducted by J. Francis O'Shea and Richard Lawrence, deputy district attorneys, asked for the death penalty.

The thin, nervous farm worker, befriended by the Russis for six years, said he remembered nothing after Russi assertedly slapped him on the ear as the family was sitting down to breakfast.

But Lawrence read into the record statements made by Smith shortly after the killing in which he admitted drinking a quantity of wine the morning of the murder, and admitted striking Russi twice with the stove wood, once as the latter lay on the floor of the kitchen.

The jury of nine women and three men was expected to receive the case late Wednesday. Smith also has pleaded not guilty by reason of insanity, but examining psychiatrists have declared him sane. He is defended by Attorney James F. Gaffney.

BRADDOCK PLANS RETURN TO WARS, TALKS OF FARR, GALETO

NEW YORK. (UP)—James J. Braddock, the relief to royalty man who is almost broke again is returning to the ring.

Braddock said he would fight Tommy Farr, Max Schmeling and Tony Galento.

Farr hates Braddock because Braddock won a 10 round decision over Tommy on Jan. 21, 1938. Braddock beat Farr after his great showing against champion Joe Louis. He not only beat Farr—he made him look ridiculous.

Shingle Girl Will Bowl In International

Marian Heusner Martin, of Sacramento, daughter of Supervisor and Mrs. Cyril Heusner, of Shingle Springs, arrived in Oklahoma City, Oklahoma, Wednesday morning to take part the last of this week in the international bowling championships.

Supervisor Heusner revealed Wednesday that his daughter, who graduated from the county high school in 1933 and was wed three years ago to Raymond Martin, of Sacramento, has been bowling for ten months.

Her work in women's bowling leagues in Sacramento has been so sensational that when Mrs. Marty Gilbertsen Holland, rated as one of the best women bowlers on the west coast, found herself unable to go to the international tournament, Mrs. Martin was given the chance to go, using Mrs. Holland's entry fees and transportation.

She will bowl with a team of five girls, two from San Jose and two from Redwood City and in the doubles is paired with Ida Facchino, of San Jose.

THURMAN TELLS HIS POSITION

Assemblyman Replies To
Recent Criticism By
Democratic Committee

The following reply to "an open letter recently addressed to him by the El Dorado County Democratic Central Committee was made by Assemblyman Allen G. Thurman under date of May 1st.

The letter of the committee was printed in these columns last week. We now have Assemblyman Thurman's reply, addressed to George E. Faugstad, chairman, and A. C. Winkelman, secretary, of the county Democratic Central Committee.

The letter follows:

Gentlemen:

I have before me your open letter dated April 22, 1939 in which you criticize my actions as the representative of the people of the Sixth Assembly District and in which also you refer to the action taken by the senate in taking action powers away from the Lieutenant Governor of the state.

I thank you for your letter and am happy to reply and explain my position as the representative of the people of the largest assembly district in the state of California. And in replying I am also mailing copies of the reply to the other Democratic Central Committees of the Sixth Assembly District as well as to the newspapers and the other parties to whom you mailed copies of your open letter to me.

First, so that we may better understand each other, I desire to state that I sought the office on a non-partisan basis; that too was the basis on which I was elected and that is the basis on which I am endeavoring to serve the people of my district. And after serving but a few

(Continued on page 5)

MRS. JESSIE CLAPP HOGAN TAKEN BY DEATH AT PORTERVILLE

Friends have received word of the death at Porterville on April 28 of Mrs. Jessie Clapp Hogan, a native of El Dorado County and for many years a resident of the Ringgold section and of Placerville. Last rites were held on Monday and were followed by cremation at Fresno.

Mrs. Hogan was buried at the I.O.O.F. cemetery Diamond Springs and it was presumed that plans may contemplate placing the ashes of his wife at rest beside his grave.

Mrs. Hogan was the wife of John Hogan, who passed away in 1923. They lived for many years on the Hogan ranch at Ringgold and after leaving their place there, moved to Placerville where they resided until Mr. Hogan's death.

Subsequently the family had moved to Oakland.

Mrs. Hogan is survived by one son, Earl Hogan, and one granddaughter, Grace Hansen, both of Oakland; and by one daughter, Mrs. Frank Norman, of Porterville, and one grandson, Jack Norman, of Porterville. She was a sister of Mrs. Nannie Williams, of the Buck's Bar section.

ELK GROVE TO MEET COUGARS

High School Lads Play
On Home Field Friday
In Championship Game

Undefeated champions of the Mother Lode League, the Cougars meet the greatest test of the season on their home field Friday afternoon at 2:30 o'clock when they meet the greatest test of the season nine, champions of the Sacramento County League.

The game will start at 2:30 o'clock and is a continuation of the elimination series working toward the establishment of the northern California Interscholastic championship.

Owing to the fine brand of baseball which the Cougars have been playing this year, and because of the championship which is at stake, it is believed that a large number of residents of the county will join with the high school student body in supporting the Cougars as they take the field.

Coach L. A. Brown reported Wednesday morning that he "sees no reason to change the lineup."

"We have been getting along very well with our present combination and unless something untoward develops, we'll go into the game with the regular lineup," the coach said.

"Bill Schroth will do the pitching."

Schroth pitched against Sonora last week in the Mother Lode league championship game at Sonora and won, 3 to 1 with the help of the Cougar batters. In that game, Schroth accounted for ten strikeouts and yielded six scattered hits while walking only one batsman. Schroth's arm has had a week's rest and he is expected to be in tip-top shape for the Elk Grove game.

"We've got a job on our hands," Brown said. "Elk Grove is plenty good, but we've got a good team, too; and it ought to be a good game."

Mrs. Sinclair New President

Shakespeare Club Elects;
Annual Picnic To Be Held
At Home Of Mrs. H. Reaside

The regular meeting of the Placerville Shakespeare Club was held at the clubhouse Tuesday.

The Travel Section, with Mrs. Bennett as chairman will have the last Mexican program at the home of Mrs. Don Hoffman on the Tahoe Highway who will serve a Mexican luncheon to the group. Cars are to leave the clubhouse at 12:45, Tuesday, May 9th.

Reports of the delegates to the tri-county convention were read by Mrs. George Van Vleck and Mrs. Agnes Ailman. Mrs. Amstalden was chosen as delegate to the club convention at North Sacramento, with Mrs. John Purcell as alternate.

Chairmen of the various booths of the recent flower show expressed their pleasure at the success of the venture from a financial standpoint. A moment of silent prayer was held. Secretary Mrs. Reaside; Correspondent Mrs. Vann of Arbuckle who passed away very suddenly recently. She was related by marriage to Mrs. William Albright.

Mrs. Reaside gave the club a most cordial invitation to have the yearly picnic at her home in Lotus, on June 6. This is to be the last meeting of the year, with a pot luck lunch served out of doors weather permitting, and installing the new officers for the next year, who are:

President, Mrs. Robert Sinclair; Vice president, Mrs. Geo. Van Vleck; Secretary, Mrs. Reaside; corresponding Secretary, Mrs. Eva Carpenter; Board Members, Mrs. Charles E. Hand and Mrs. Leo Burger.

The yearly concert of the Club Choral is to be held at the Club house on the evening of Tuesday, May 23, with a guest artist from Sacramento, a young man who is becoming well known in musical circles as a concert violinist.

A notice of their intention to wed was filed with the county clerk on Wednesday by Charles J. Stewart, 32, and Jackie Bond, 25, both of Placerville.

3 DAYS of fun and frolic and a demonstration in better home making opened for county homemakers Wednesday at the Shakespeare Club House, with Mrs. Jane Barton in charge, presenting the seventh annual Homecraft Institute, under joint sponsorship of this newspaper and Pacific Rural Press. The Homecraft Institute continues Thursday with a Kitchen Carnival at 7 o'clock in the evening, to which the men are especially invited, and concludes with the afternoon meeting on Friday.

'Hours Worked' Interpreted In Labor Standard

WASHINGTON (UP)—Wage-hour administrator Elmer F. Andrews ruled today that "hours worked" under the fair labor standards act means all time at which the employee is on duty, on the employer's premises, at a prescribed work place, or permitted to work even if he is not required to do so.

He released an interpretative bulletin prepared by General Counsel Calvert Magruder's office, which discussed status of employees who travel on company business, who are subject to call 24 hours a day, and other special cases.

Time clocks, it added, would be an appropriate basis for determining hours only when they accurately reflect the period worked by the employee. If a worker was required to be present for a considerable time before punching the clock, such an interval would be included in working hours.

CHESMORE FUNERAL TO BE FRIDAY FROM MEMORY CHAPEL

The funeral services for C. W. Chesmore, 75, who passed away suddenly Tuesday at his home in the Five-Mile Terrace, will be held from Memory Chapel at 2 o'clock Friday afternoon.

The Rev. Harold Morehouse will officiate. Burial will be at Union Cemetery.

COUGAR TENNIS TEAM WINS

Play Saturday To Decide
Mother Lode League
Championship

E. C. H. S. netsters took the Northern Division championships in boys' singles and mixed doubles at the meet held at Ione Saturday.

Jim Thorne copped the singles title with the greatest ease. Corbell of Ione started out as though he would make a duel of it, but faded rapidly to lose 6-2, 6-1. Thorne returned the hard shots with thrilling cross-court placements. The soft shots he put away by chopping short to Corbell's backhand and following in to volley the returns. Spinetti of Jackson, only a beginner, went down 6-0, 6-0 in the second round.

Jim Neeley and Mary Jean Neeley had more difficulty, but beat the Kreth-Stewart team of Ione 6-4, 6-2 in the first round and the Crane-Tallia combination of Sutter Creek 6-4, 6-4 in the final. Neeley's blistering serve scored as high as four consecutive aces, and his deftly angled volleys forced "sitters" that he smashed away for keeps. Mary Jean's service was erratic, but she scored her share of points on cross placements.

Don Cosens and Wallace Meyers defeated McShane and Digitale of (Continued on Page 4)

Mrs. Leonice Cozquez was removed to Placerville Sanatorium Wednesday morning for the treatment of a fractured hip, incurred in a fall in the yard at her home. She lay in the yard for some time before being found by neighbors.

You Are Invited
To Attend
THE SEVENTH ANNUAL
HOMECRAFT INSTITUTE
May 3, 4 and 5
at the
SHAKESPEARE CLUBHOUSE

Program

First Day, May 3

WEDNESDAY AFTERNOON—Clubhouse open, 1:30. Viewing of exhibits and displays. 2:00 Jane Barton's tempting recipes, plus secrets of charm and how to use the newest fashion. 4:00 awarding of prizes. 4:30 balloting on exhibits.

Second Day, May 4

THURSDAY NIGHT (no afternoon session) 6:30 clubhouse open, viewing of exhibits and displays. 7:00 Jane Barton's program and Kitchen Carnival. 8:00 style show. 8:15 special stunts and entertainment 8:30 ladies' and men's 49 costume awards. 8:45 Jane Barton's ways to save with tasty appetizing menus. 9:30 balloting on exhibits, visit kitchen arrangement on stage and awarding prizes.

Raley's Drive-In Market, May 3, 2 pounds Surefine Coffee, May 4, (Continued on Page 8)

FEBRUARY JOB INSURANCE PAYMENTS IN COUNTY TOTAL \$24,849.20

Payment of unemployment insurance reached a new peak in Placerville area, according to announcement Wednesday by Ford Park, manager of the Department of Employment at 596 Main Street here.

State-wide distribution of unemployment checks during March reached the new high total of \$4,361,058.13, according to reports Park received from Sacramento, nearly \$1,500,000 more than has been distributed in any one month since the department started payment of benefits in February, 1938.

Checks distributed in Placerville totaled 2,347, Park said, and brought a total of \$24,849.20 to this community.

Up to March 31, the unemployed in this district have received 9,974 checks, in the sum of \$104,799.13.

Heavy increase in check distribution," Park said, "is attributed to changes in the Unemployment Reserves Act effective January 30; the fact that many persons completed benefit years and refilled claims on 1938 earnings and seasonal unemployment."

George Palmer Putnam To Wed, Says Rumor

HOLLYWOOD (UP)—Friends said today George Palmer Putnam, husband of the late Amelia Earhart who was lost on a South Pacific flight two years ago, will marry Mrs. Jean-Marie Consigny James of Beverly Hills, in June.

Putnam would neither confirm or deny the report.

The Homecraft Institute, presented each year under the joint sponsorship of this newspaper and Pacific Rural Press, will continue with the Kitchen Carnival on Thursday evening at seven o'clock, and the final meeting of the institute on Friday afternoon. All of the meetings of the Homecraft Institute are held at the Shakespeare Clubhouse.

The many homemakers who attended the initial meeting were especially asked by Mrs. Barton to invite the gentlemen to attend the Kitchen Carnival on Thursday evening and to share in the merry program of the evening and participate in the inspection of the Home Appliance Exhibit, which is presented by our leading El Dorado County appliance dealers.

Publisher C. E. Barker began the initial meeting of the Homecraft Institute by presenting Mrs. Barton. No need to say he "introduced" her for Mrs. Barton is all ready well known to many El Dorado County homemakers.

The director launched quickly into the institute program, using the special demonstration kitchen which had been prepared for her on the stage of the Shakespeare Club auditorium and prepared on the stage a (Continued on page 4)

"Wooden Box" Value Told

Homecraft Institute
Hears Of Importance
Of Aiding Campaign

The importance of supporting the "Wooden Box Campaign," now in its third year in El Dorado County and in other leading lumbering centers of the west, was explained to the homemakers attending the opening meeting of the Homecraft Institute on Wednesday by Russell Downs, of the campaign headquarters at Klamath Falls.

Mr. Downs, who was here especially to assist the El Dorado County Wooden Box Committee pointed out that the cut of lumber in the county last year was one hundred five million feet and that forty per cent of this lumber goes into the manufacture of wooden boxes.

The lumber industry in the county employs approximately 1,500 men and is the direct support of 4,500 men, women and children.

Mr. Downs urged that it is important that the homemakers of a community in which lumbering plays so prominent a part, should assist the campaign by favoring in their shopping goods which are shipped in wooden boxes, thus encouraging the use of wooden boxes and contributing vitally to the support of the wooden box industry.

He pointed out that competent estimates of the payroll in El Dorado County industries last year show lumbering leading the list with \$1,800,000. Agriculture was second in importance with \$1,400,000 and mining third with \$1,200,000.

Pension Lien Release Up To Voters

SACRAMENTO. (UP)—A proposed constitutional amendment to release liens taken by the state prior to 1937 on property of old age pensioners is ready for adoption or rejection at the polls. The senate unanimously passed the proposal, introduced by Assemblyman Elmer Lore, D., North Hollywood, and assembly approval previously had been given.

Associate Forester A. N. Weber and Junior Forester Leon Thomas were in the China Flat section on Wednesday morning.

Welcome To The Homecraft Institute

Four Recipes For Potatoes

Give Menus Variety By Trying Some Of The Following

The potato is our favorite vegetable whether you serve them fluffy and mashed, heaped high with a crater of melted butter in the top, mealy and fragrant from baking, fried to a golden brown, boiled in their jackets and deliciously flaky or scalloped in a creamy sauce.

However, there are so many nice ways of preparing potatoes, both the white and the sweet potato or yam, that you are missing a bet for giving your menus variety and interest if you do not try some of the following recipes.

Sweet Potato Croquettes

Bake 4 large sweet potatoes until they are tender (bake them for a better flavor), scoop out the centers and press through a potato ricer. Add 2 tablespoons butter, 1 teaspoon salt, 2 tablespoons brown sugar, a dash of white pepper and beat until the seasonings are blended. Form into tiny cylindrical shapes, dip in 1/4 cup fine bread crumbs, then into 1 beaten egg to which 1 tablespoon water has been added, then again into the crumbs. Fry in deep fat until golden brown. Good with any kind of meat or for adding interest to the vegetable plate.

Hashed Brown Potatoes

Chop cold boiled potatoes and season well with salt, pepper and a grating of onion if you like the flavor. In a heavy skillet melt 1/4 cup each of butter and bacon drippings. Pack 5 or 6 cups of the potatoes into the skillet, moisten with cream and cook, turning occasionally until heated through and golden brown. Or you can cook without turning until crisp brown crust forms on the bottom, then fold like an omelet and transfer to a hot platter. Garnish with parsley. Good with roast or steak.

Glazed Sweet Potatoes

Boil medium sized sweet pota-

Serve Spiced Beef Hot Or Cold

Chop 2 pounds of tender beef- steak very fine, season with salt, pepper and a bit of sage (or other spices of your liking). Then add 2 tablespoonfuls of melted butter. Mix in half cup of cracker crumbs and 2 beaten eggs. Make into a cake or roll; baste with melted butter and water; then bake until brown. Spiced beef can be served hot, or sliced cold. Makes a delicious sandwich filling.

POTATO SNOW

Mealy potatoes which cook very white are best. Boil, drain off water and mash thoroughly. Add seasoning, and be sure to keep them hot during preparation. Then put them through a ricer or sieve into dish in which they are served.

toes until just tender, but not soft or mushy. Peel, cut in halves lengthwise and roll in melted butter, sprinkle with salt and pepper and sprinkle liberally with brown sugar. Arrange on the broiler rack around partly broiled chicken or steak and cook under the broiler flame until the potatoes are thoroughly heated and glazed.

Bacon-Potato Pancakes

Bake these pancakes on a griddle, brown both sides well and sizzling hot for breakfast or supper. Blend 2 cups grated raw potatoes, 2 tablespoons flour, 2 tablespoons milk, 2 well beaten eggs, 4 strips bacon, minced fine, 1 teaspoon salt and a dash of pepper. Top, if you wish, with soft-scrambled eggs.

Potato Puffs

Fresh mashed or left-over mashed potatoes can be used for this. Beat the potatoes with 2 tablespoons of melted butter to a froth. Add 2 eggs, well beaten with salt and pepper, 1 cup milk and 1/4 cup grated Parmesan cheese. Add a pulverized leaf of sage for seasoning. Pour into individual ramekins and bake in a hot oven until puffed and brown. This is the nicest way we know to use up left-over mashed potatoes.

HOTPOINT REFRIGERATOR HAS AMPLE ROOM WITH CONVENIENCE

"By Every Yardstick a Great Refrigerator Buy"—the new Hotpoint for 1939 is rapidly proving itself worthy of this nationally advertised slogan, according to Ray Pyle, of Pots and Pans, exclusive dealer for Hotpoint in El Dorado County.

Hotpoint, says Ray, have built a refrigerator that it will be a pleasure for any housewife to use. Big watermelons, lots of tall bottles, vegetables or chilled deserts—these are the things that puzzle most of the housewives—but they can be easily accommodated in the new Hotpoint refrigerator without a second thought.

The most important thing about any refrigerator according to Ray, is its mechanism. If that fails the refrigerator is useless. The Hotpoint Thriftmaster mechanism is vacuum sealed in a strong welded steel case. No dirt or moisture can ever get in to harm it. It is oil cooled so that it runs at the most efficient temperature, and every moving part is lubricated under pressure, which eliminates wear. You never need oil the Thriftmaster because a permanent supply of high quality mineral oil is sealed inside at the factory, the dealer states.

With its 6-way cold storage compartment gliding shelves, all-steel cabinet, Thermocraft insulation, its porcelain interior, and modern convenience features, the 1939 Hotpoint refrigerator is truly a remarkable value at today's low prices. Every housewife is cordially invited to Pots and Pans to see the new Hotpoint.

COOL MOIST AIR CHIEF AID TO BEAUTY, PRESTLEY REPORTS

"Cool moist air is one of the principal aids to beauty, according to recent reports of leading cosmeticians and dermatologists," reports Bert Prestley, president of the Rotary Oil and Burner Co., which is demonstrating the Utility Desert Kooler at the Homecraft Institute. "Cosmeticians and dermatologists point out that the body requires a definite minimum of moisture for complete health, and the parching effect of uncontrolled summer heat is detrimental to both skin and hair. "Scientists point out that English women have always been noted for fresh, naturally beautiful complexions, as a result of the cool, moist climate. The same thing has been noted in parts of this country close to the ocean or other large bodies of water.

"In severely hot, dry climates, skin may be parched to a point where it becomes chapped or irritated during summer months. This particularly affects babies and the younger children.

"The same advantages of cool, moist air are easily available by the use of evaporative coolers for conditioning homes and business houses, as these coolers supply air at the temperature and humidity best suited to human health and comfort."

THEY'RE EXTRA NICE: PARSNIP FRITTERS, SCRAMBLED MUTTON

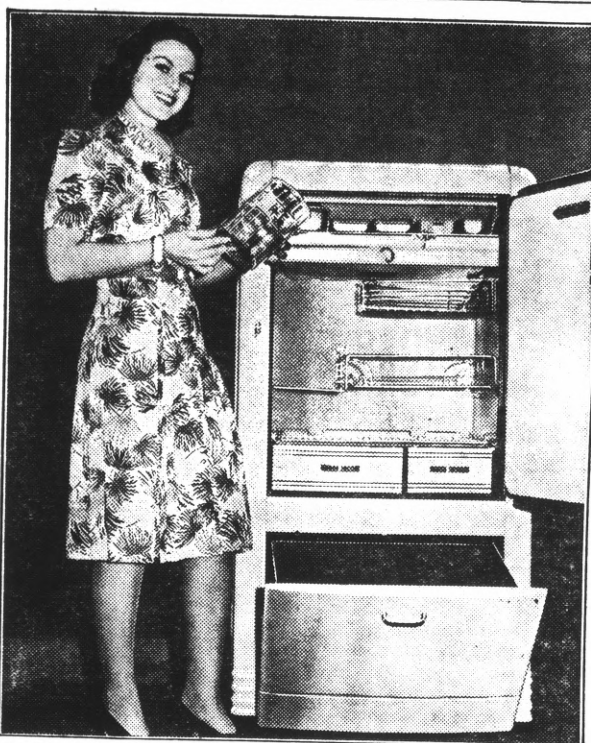

Next time you want to delight your guests with something extra nice, try these:

Parsnip Fritters: Select about 4 medium size parsnips; boil tender, peel and mash fine; beat in an egg and mix in a tablespoonful of flour and a pinch of salt. Mold into small patty-cakes and fry in hot lard. Turn cakes to brown evenly on both sides.

Scrambled Mutton: Mix 2 cups of chopped mutton in a little warm water, and add a pat of butter. Put in frying pan with butter until mutton is hot. Then scramble in 3 eggs and stir until firm. Sprinkle with salt and pepper; serve with garnish of parsley. This is an excellent way to use up left-over mutton.

Old-Fashioned Hamburger Good With Brown Gravy

Mix a fine-chopped onion with a pound of ground steak; season with salt and pepper. Pat steak out into a big round cake about a half-inch thick. Put in hot frying pan with butter. Turn the cake carefully to brown both sides. You can serve this old-fashioned dish with a brown gravy if you like.

HOMEMAKERS WHO accept our invitation to attend the meetings of the Homecraft Institute will be interested to know that Mrs. Jane Barton has selected a Gibson refrigerator like the one pictured above, for use in her demonstration kitchen during the 3-day meeting. The Gibson is being displayed also by Ray Pyle, dealer, at his Pots and Pans store.

PHILADELPHIA PEPPER POT FINEST WHEN SERVED HOT

Like soup? You will when you try recipes made just this way:

Philadelphia Pepper Pot: Into the soup-kettle place two pounds of tripe and four calves' feet, cover with cold water; add a fresh red pepper; boil slowly until the calves' feet are tender; take out the meat, skim the liquid, and stir it. Cut the tripe into small pieces, and put it back into the liquid; if there is not enough liquid, add boiling water. Then add half a teaspoon of sweet marjoram, sweet basil, and thyme, two sliced onions, sliced potatoes, salt to taste. When the vegetables have boiled until almost tender, add a piece of butter rolled in flour, drop in some egg balls, and boil fifteen minutes more. Flavor is finest when served piping hot.

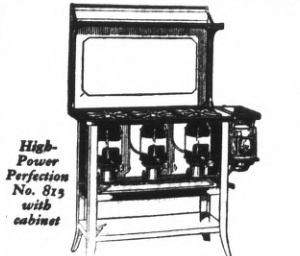

Tomato Soup: Peel a quart of fresh tomatoes (or use a quart jar of canned) and cook them until soft. Strain to remove seeds. Put back on fire; add a quart of boiled milk; season with salt and pepper and a generous lump of butter; stir in a half cup of cracker crumbs. Keep hot and serve with crackers or toasted bread squares.

Prison "Pot Likker" Even Pleases Judge

KLAMATH FALLS, Ore., (U) — Inmates of the city jail here heaped coals of fire on the heads of the law.

"Razor Back" Turner, a trusty, took up a collection among the inmates, bought some brown beans, a bit of garlic, a little bacon and hamburger, which they concocted into a "pot likker" so tasty that everyone from the judge who had sentenced them down to the police sergeant in charge enjoyed large plates of it. The inmates did not forget to serve themselves as well.

LIFETIME SATISFACTION

Perfection quality and High-Power burner performance make this oil stove a lasting value

• You don't buy a new stove every day. Get one that will give satisfaction for years—a Perfection oil stove with fast, clean, High-Power burners. See our line of Perfections. Choice of ranges with built-in ovens, or stoves for use with Perfection portable ovens.

"Just A Snack At Midnight, When The Lights Are Low"

By DOROTHY AMES CARTER

"Just a snack at midnight, when the lights are low..." is a householder's way of paraphrasing that old sweet song. But sneaking snacks is not only a night owl's diversion—it's a favorite practice any hungry hour and a prowler's pastime perennial!

Snacks, if any quibblers are here present, is a word befitting any 'tween-meal bite from a chunk of cake to a sardine sandwich; it's a prize from the fruit bowl; it's a banana, to be shucked from its sleek skin and gobbled. Even a beverage is a snack, if you will—a frosty juice night-cap of a steaming cup of coffee (which, by the way, they tell us now, is all right to drink at night because coffee's lift-up lasts only two hours and then lets you sleep as usual).

Snacks, any old time at all, are one of the things that almost single handed, justify the expense of keeping a house running. The pantry and the refrigerator spell home—lovely home—where it's every man to his own snack-snaring and poaching on the left-over is fair game for all!

COLD NIPS

Something chilly in the refrigerator is a timely idea. Do you keep some cans of grapefruit juice a-chill, ready for a tangy quencher? There is a blended orange and grapefruit juice in a can that's a dandy, too. If it's something slightly fancier (it's fun to stir up something on the prow!) how about:

Grapefruit-raspberry julep: Boil 1/2 cup sugar and 1/2 cup water together for 5 minutes. Cool, add 1 (No. 2) can grapefruit juice, 1/4 cup lemon juice, and three-quarters cup sweetened raspberry juice. Chill thoroughly. Pour over cracked ice in tall beverage glasses.

Another beverage-snack that's especially recommended for the youngest generation is the banana milkshake. You just slice a fully ripe banana into a bowl and beat with rotary egg beater or electric mixer until creamy; or press banana through medium mesh wire strainer with a spoon. Add 1 cup cold milk and mix thoroughly. Serve COLD. Makes 1 large or 2 medium-sized drinks. Dust a suspicion of nutmeg on top if you like it.

HOT SIPS

No hot drink is more cockle-heating than plain, straight coffee—made fresh, with plenty of coffee.

and served hot, with or without cream and sugar. A combination chocolate-coffee drink is a change; ever try pouring hot coffee over your cocoa and sugar mixture for a quick "choffee"? Whipped cream and a little cinnamon is a good topper for your coffee—and remember, anything from a cracker to a sandwich "goes down good" with coffee.

THE CONGENIAL SARDINE

All snack-snatchers like sardines, especially those silvery fellows from Norwegian waters; there are scores of brands but the quality ones are marked "brisling" or "sild." A sardine rests safely in its trig can until the key summons its goodness to mate with crackers, or to go into sandwiches or mix into salads. Keep several cans handy—they take so little space and feel Croesus-rich in always having something to snack upon!

Molasses Cookies

Mix together: one-third cup shortening, 1/2 cup sugar, 1 egg, 1/4 cup milk, one-third cup molasses, 1/2 cup all-bran, 1 1/2 cups flour, 1/4 teaspoon soda, 1 teaspoon baking powder, 1/4 teaspoon salt, 1/2 teaspoon nutmeg, 1/2 teaspoon cinnamon, 1/4 teaspoon cloves.

Cream shortening and sugar thoroughly. Add egg, beat until creamy. Add milk, molasses and all-bran. Add flour which has been sifted with soda, baking powder, salt, nutmeg, cinnamon and cloves and mix well. Spread batter very thin in greased large jelly roll pan with heavy waxed paper in the bottom. Bake in slow oven (300 degrees F.) about 25 minutes. Cut diagonally into diamond shapes as soon as cookies are removed from oven. Let cool slightly before removing from pan. Yield: 4 dozen cookies (1 1/2 x 1 1/2 inches).

Nut Fudge Cake

Take one-third cup shortening, 1 cup sugar, 1 egg well-beaten, 2 squares unsweetened chocolate, melted, 1/2 teaspoon salt, three-fourths cup milk, 1 three-fourths cups cake flour, 2 teaspoon phosphate baking powder, 1 cup ground Brazil nuts, 1 teaspoon vanilla.

Cream the shortening, add sugar gradually, beating well. Stir in beaten egg. Stir in chocolate. Add flour, sifted with baking powder and salt, alternately with the milk. Stir in Brazil nuts and vanilla. Pour batter into two 8-inch greased cake pans. Bake in a moderate oven (350 degrees F.) 30 to 35 minutes.

MECHANICAL REFRIGERATOR REQUIRES ROOM "TO BREATHE"

The need for ample ventilation around the cabinet and mechanism of a mechanical refrigerator is called to the attention of home planners by officials of Federal Housing Administration.

Niches for refrigerators should be avoided, if the refrigerator is to be operated economically. If it is to be built into a unit-cabinet kitchen, ample ventilation must be provided at the rear or sides.

The Federal Housing Administration also suggests that prospective home owners, in selecting a refrigerator, seek: (1) Ample storage capacity as related to the number of house occupants; (2) efficient moisture-resistant insulation; (3) a well-built cabinet, tightly sealed against air on the outside so that warm moisture-laden kitchen air cannot contact the insulation; (4) durable, easily cleaned interior and exterior finishes; (5) easily serviced, durable mechanism; (6) safe refrigerator; (7) reputable dealer service organization.

Ready For Breakfast? Try Buckwheats

You've never had a real breakfast till you've tasted buckwheat cakes made up the real old-time way. This is the way they were made back in the 'eighties:

Into a crock or pitcher, put a quart of warm water, or half water and milk, and one heaping teaspoonful of salt; then stir in as much buckwheat flour as necessary to thicken it to a rather stiff batter; then add a half cup of yeast; make it smooth, and cover in a warm place to rise over night. In the morning add a small level teaspoonful of soda dissolved in a small amount of warm water. The soda removes any sour taste and makes the batter light. Bake till brown.

HOT SLAW

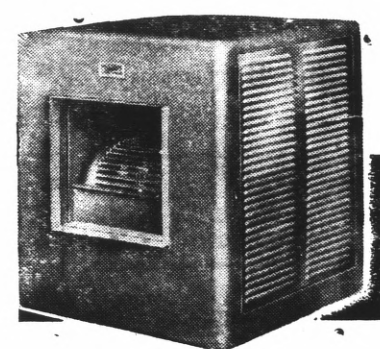

Shred the cabbages and put in a pan over slow fire until slaw is thoroughly heated through. In a salad bowl make a dressing of vinegar, seasoned with salt, pepper and a little sugar. Pour this over the cabbage and stir over fire until the dressing is thoroughly mixed through the cabbage. Then serve hot.

UTILITY DEZERT KOOLER

For Home, Office,
Or Store!

The new Utility room cooler is the latest development of INSIDE room coolers, bringing you comfort by Utility's proven method of evaporation—at a fraction the cost of other types of cooling apparatus. Delivers large volume of clean, refreshing air to cool your home, store, shop, cafe or office. The air flow can be instantly directed by means of the adjustable grills—plug into any AC light socket—connect to water supply with 1/4 in. copper tubing—equipped with water recirculating system—entire unit is full-floating, silent. New, beautiful, baked enamel finish with bronze trim. Modern and distinctive in design—a handsome piece of furniture that compliments any room.

Can be installed in a
jiffy in any room,
office or store

STUDEBAKER SALES UP 73 PER CENTS FOR QUARTER

SOUTH BEND, Ind.—A 73 per cent increase in sales and a profit to compare with a loss last year are features of the Studebaker Corporation's report for the first quarter of 1939. Three report showed:

Net profit of \$56,914 to compare with a net loss of \$1,072,352 for the 1938. The report showed:

A \$4,400,000 expansion program, in connection with introduction of its new low-priced car, fully paid for without recourse to loans or financing.

An increase in cash account on March 31 over December 31;

A March payroll 40 per cent greater than the peak reached in 1938 with 7,600 employees working a 5 1/2 day week;

Net sales of \$15,095,249 against \$8,705,512 for the first quarter of 1938, a gain of 73.4 per cent.

The financial report to stockholders showed cash on March 31, 1939, amounting to \$6,461,489 to compare with \$6,097,794 at the end of 1938. Working capital, after completing the first quarter's heavy payments in connection with the Champion program, amounted to \$8,584,965 on March 31, against \$8,978,478 on December 31, 1938. The first quarter profit is equal to two cents a common share.

The Studebaker Corporation has 25,020 stockholders.

Control Frowns, Give Your Face Animation

How can you give your face animation? How can you make it responsive to every thought, every mood, so it is fascinating to watch? Develop the muscles. There are twice as many muscles in the face that express disagreeable thoughts. Control them and develop those that help you smile. In happy moods the lines of the face have an upward movement. Stand before your mirror ten minutes each day and make your face express different emotions, both pleasant and unpleasant. Try to look happy. Try to look interested. If you can look interested when you are with others, you will be popular. "Making faces" before your mirror is excellent practice.

ENDURING ECONOMY IN OPERATION FEATURE OF G-E MODELS

Styled for lasting beauty and built for enduring economy, the new 1939 General-Electric refrigerator models are displayed for El Dorado County housewives at the Homecraft Institute by The Sportsmans Shop.

"We are glad to participate in the Appliance Exhibit to demonstrate General-Electric features for the home makers of the county," says Don Goodrich, the G-E dealer, "and anyone interested in our products who is unable to complete an inspection of our display in connection with the Homecraft Institute is invited to see the models on the floor at our store at any time."

In addition to the Thriftometer and the features of convenience in refrigerator service in the new General-Electric models, the manufacturer is again calling to the public attention this year the several points of items entering into the manufacture of the refrigerator which help to assure long life and economical operation.

These include the oil-cooled, vacuum sealed operating mechanism, all-steel cabinet reinforced by steel, door hinges hung from a steel bar and swinging on steel bearings, and the exterior finish of rust-proof porcelain or baked enamel, assuring a lasting luster and enduring beauty.

"The General-Electric is a good refrigerator," says Mr. Goodrich, "and there are three features which we believe, especially commend it to the attention of homemakers: It is a good value; it operates economically; and maintenance is next to nothing over a long period of years."

CORN SOUP

Take fresh green corn, about a half dozen ears, cut off the kernels and boil the cobs in two quarts of water. When boiled add the kernels and cook until done. Season with salt, pepper and the spices you like. Keep boiling; add a cup of milk, stir in a tablespoonful of flour rubbed in butter to thicken.

COUGAR TENNIS TEAM WINS

(Continued from page one)

Jackson 6-4, 6-1 in the first round, but bowed out to Hawkins and Sheridan of Ione 6-3, 6-4.

Edith Young and Wallace Meyers defeated McShane and Digdale of Ione 6-4, 6-4.

The winners at Ione meet the winners of the Southern Division at Sutter Creek on Saturday, May 6, to determine the Mother Lode championships.

OLSON BUDGET FACING FURTHER REDUCTION IN SENATE

SACRAMENTO, (UP) — Freed at last from a bitter assembly deadlock, Gov. Culbert Olson's biennial budget—chopped by \$81,200,000 under the original \$557,000,000—moved into the senate today for almost inevitable further reduction by the conservative Republican majority.

The assembly ended three weeks of maneuvering late yesterday by passing the budget 64 to 14. Administration forces emphasized they were displeased with economy bloc amendments but were obeying Governor Olson's command to vote a two-thirds majority and transfer the battle to the senate.

Assembly cuts included removal of a \$72,700,000 relief item and \$8,500,000 from other departments. Some or all of the proposed relief appropriations will be restored, however, in a separate bill.

FIRST LADY SELECTS HER WARDROBE FOR VISIT OF KING AND QUEEN

NEW YORK (UP) — Mrs. Franklin D. Roosevelt had the final fittings today of the nine costumes she will wear during the visit of the king and queen of England.

Miss Lucille Mahoney, who has been Mrs. Roosevelt's designer for the past 18 years, created the costumes. Included is a white ermine evening stole to be worn loosely over the shoulders and falling to the floor.

For evening wear Mrs. Roosevelt selected a gown of chiffon in pastel shades of mauve and natural alien lace. When she accompanies the king and queen to the world's fair, Mrs. Roosevelt will wear an ensemble including a star print dress trimmed with navy blue patent leather. The coat has a jacket effect to the hip line and from there down is made of pleated silk print. A navy hat and navy gloves complete the costume.

Mrs. Roosevelt also has chosen an afternoon ensemble of rose silk print fashioned in a tailored suit, a Scotch plaid chignon dinner gown and two tailored casual dinner gowns.

NEW UNION STATION IN LOS ANGELES DEDICATED

LOS ANGELES, (UP) — Los Angeles dedicated today a new \$11,000,000 Union station that has every modern depot gadget from a nickel in slot shower bath for tired travelers, to escalators that carry your baggage.

The station has been under construction for five and one half years. Santa Fe, Union Pacific and Southern Pacific railroads pooled to build it and will have joint use of its 32 stub-end tracks.

MILAN, Italy, (UP) — Radiological apparatus which can photograph the coughs of a patient during attacks of pleurisy or pneumonia has been invented by Prof. Edoardo Signorini. It will be an important exhibit at the Leonardo da Vinci Fair in Milan.

Mrs. H. P. Brown, of Placerville, was a San Francisco fair visitor recently and made her headquarters at the Palace Hotel.

PUBLIC NOTICE

NOTICE OF TIME SET FOR HEARING APPLICATION TO ESTABLISH FACT AND RECORD OF BIRTH.

No. 4812
IN THE MATTER OF THE APPLICATION OF AUDREY ALVA BROWN, formerly AUDREY ALVA DIXON, to establish fact and record of birth.

NOTICE IS HEREBY GIVEN that a petition to establish fact and record of birth of AUDREY ALVA BROWN, formerly AUDREY ALVA DIXON, praying for an order judicially establishing the fact of birth of petitioner, has been filed in this Court, and that the 5th day of May, 1939, at 10 o'clock a. m., at the Courtroom of said Court, at the Court House in the City of Placerville, County of El Dorado, have been set as the time and place for the hearing of said petition by the Court, when and where any person interested may appear and contest said will.

Dated: April 19th, 1939.
ARTHUR J. KOLETZKE, Clerk.
By V. H. BENSON, Deputy.
Apr. 20-May 3-10.

Homemakers In Institute

THURMAN TELLS HIS POSITION

(Continued from page 1)

months in the state legislature I am more convinced than ever that the members of the legislature should be elected on a non-partisan basis and thereby not be subject to dictation or "high pressure" by any political party. You have a perfect right to disagree with me, but nevertheless, that is my opinion.

Second, there has been a lot of political propaganda put out about a mandate of the people. Some of our legislators too were elected by a mandate of the people of their district. And I feel that I was one of those legislators. If you recall, and I think that you will, on every election card which I handed out to the voters of the ten counties I have the honor of representing, was printed this slogan: "I AM FOR SANE LEGISLATION AND ECONOMY IN GOVERNMENT." I did not try to fool anybody at any time and when I said I was still for economy I meant it and still mean it. In this am I not consistent? And I further believe that when the people voted in a new administration they did so on certain claims of economy. Perhaps my ideas of economy are not the same as those entertained by you gentlemen. And so for your information here are a few of my ideas as to economy. I do not believe that at this particular time we should add to the tax burden to balance the budget. The federal government has been going along for several years with an unbalanced budget and I have not heard much talk about it being balanced. I do not believe in increasing taxes to balance our state budget if we can carry on with some economy in spending and not go deeper into the red. I am opposed to any kind of a severance tax and believe that you also realize the danger that might occur were we to start a severance tax program which once started might not stop until it hit right at home in our gold mining industry and our lumber industry. Surely as business leaders in the

largest mining district of the state, you can see this danger.

And in the spending program of the present administration I may as well go on record right here, that I am opposed to the proposed compulsory health insurance program which it is estimated will add a payroll tax upon industry and business and the employees totaling some \$80,000,000 a year.

In your open letter you state that representatives are elected on the promise they will represent all of the people of their districts, honestly, fairly and impartially and not descend to the practice of petty partisan politics of the rule or ruin kind. I quite agree with this statement and I challenge you or anyone else to prove that I am not sincerely and honestly endeavoring to serve the people of the district on my promise to them and upon my platform of "sane legislation and economy in government."

I desire to point out this fact, that I am trying to serve the people of the district and not the politicians. I owe allegiance to no party, not even the party to which I belong. My vote on the budget was not a party vote but an economy vote, and in so voting carried out my campaign promise to the people who elected me.

As long as I am in the state legislature I shall endeavor to serve the taxpayers, the business men, the farmers and fruit ranchers, the little home owner and the man who labors whether he be a clerk in a store or a member of some profession or craft because it is these people who have to foot the bill when taxes go up. Even a severance tax would be a hidden tax upon these people and it is my humble opinion that the tax ceiling has almost been reached. A budget of \$557,000,000, gentlemen, is not going to decrease taxes.

For those people who are unemployed through no fault of their own, I desire to see that relief is so administered that they will receive adequate and ample relief.

In the opening paragraph of your letter to me you criticize the action of the previous senate in taking from the Lieutenant Governor, the

right to appoint the various committees of that body, basing that as one of the reasons you claim that the present legislature is out to wreck the present administration. For your information the present governor of the state was a member of the senate which changed the procedure which took away certain powers from the Lieutenant Governor. Gentlemen, he voted along with with the majority of the senators to do the very thing which you now criticize. So such argument just does not make sense. I personally believe that the senate did the right thing because I do not believe that the executive department of the state government should exercise such control over the legislative branch.

Just one more word about the budget. According to the Secretary of State's office, no budget bill has ever been passed without amendments. And no budget, the same source reports, has ever been passed by a mere majority vote. So it appears to me that this legislature is no different from any other in that they have made some reductions.

As the representative of the people of my district I shall at all times cooperate in the passage of legislation which my people believe to be constructive but I shall also oppose any legislation which may be destructive to the people I represent. In this connection, I desire to tell you gentlemen that I have received several hundred letters from people residing in the ten counties of the district opposing either the budget or the compulsory health insurance and many of these letters

came from registered Democrats residing in El Dorado County. And to be exact, I have received but six communications from the entire district favoring the budget as presented, two of which were resolutions from the Workers Alliance whose president is an alleged registered communist; your letter, two other letters and a post card. As far as I am concerned, the people have spoken, they want no increase in taxes and no compulsory health insurance.

And just a line in closing. Believe me when I say that I am sincerely trying to serve the people of my district on a non-partisan basis. I am sure that the people of my district do not want a "rubber stamp" serving them.

Thanking you for this opportunity to state my position and with kindest personal regards, I am Sincerely yours,
ALLEN G. THURMAN,
Assemblyman Sixth Dist.

Latest Hair Styling Style Revue

In addition to the Style Show on Thursday night, arranged through the courtesy of The Cash Mercantile and the Homecraft Institute the Stores Co., homemakers in at the Shakespeare Clubhouse will also see latest hair styling by Miss Patricia Wagner of the Ivy Beauty Salon, who is doing the hair dressing for the three models, Miss Eleanor Tagmeier, Miss Stella Bathurst and Jeanne Meyers.

Boston Brown Bread As Made in 1880

"This recipe will tickle your palate! It was the pride of the best cooks of the 'eighties.' Make them like this:

Boston Brown Bread: Mix 2 cups of rye flour, 4 cups of yellow corn meal and one cup of graham flour with a half cup of molasses, a tea-

spoonful of salt and two-thirds cup of yeast mixture. Use warm water and mix into a stiff dough. Allow it to rise 3 or 4 sours; then mix in a little warm water. Beat it thoroughly and put into deep pans, well greased. Allow to rise again and bake 3 to 4 hours in moderate oven. Delicious served warm with sweet butter and jelly.

"Shirt Front" Homes Curbed

One-Sided Treatment Is Discouraged By FHA And Given Low Value Rating

Homes of the so-called "shirt front" or one-sided-treatment design are discouraged by the Federal Housing Administration and are given a low-value rating.

Architectural designs that are considered freakish, or those characterized as hybrid, are penalized in ratings. To receive favorable ratings, all design motifs should be in good taste, have a utility basis, or add structural value and attractiveness to the general scheme. Elaborate use of motif and detail, inclusion of an unnecessary variety of materials, and straining for the picturesque cannot increase the rating. FHA officials declare. Use of false effects of roofing, false half-timber work, or unusual handling or combination of materials usually lessen the salability of a home and thus affect the rating adversely.

* BROWN BETTY

Grease a pudding dish and spread over the bottom a layer of fine bread crumbs. Fill the dish nearly to the top with alternate layers of the crumbs and chopped apples. Then sprinkle brown sugar, cinnamon and a bit of butter on each layer. Top off with crumbs. Pour half a cup of water over and then place in oven. Bake for one hour. Keep covered closely for the first half-hour. Brown Betty is best when served with hard sauce or cream. Tasty and very economical dessert.

Shall Our Children Earn?

The word "child labor" is anathema to us, but there are good reasons why the normal young person should engage in some remunerative activities as he is growing up.

The parent who indulges his child's every want, with no return obligation, is laying the foundation for extravagance and indolence. To work for pay teaches a child that money does not grow on bushes but is a measure of actual service one performs.

Earning money means "sweat of the brow," sacrifice, responsibilities, promptness, regularity, courtesy, alertness, application, submission of one's will to that of an employer, loyalty to the one served and adaptability towards one's associates.

It also means increased capability, experience, knowledge of business, ease in "mixing" and gaining friends, and confidence in one's self. The person who has never tried it is terrified by the prospect of earning his own living. Without any experience it is difficult to find a job.

The child who earns a dollar will not throw it away. He learns the value of money and when he does spend it he will be more likely to get his money's worth.

A young child should have short hours and light work. Every child should have ample time for play. After-school, Saturday or vacation employment should not interfere with his recreation or his health. The parent should see that his work environment is wholesome, both physically and morally. If it is outdoor work, so much the better.

Ways in which boys and girls can earn money are: mowing lawns, tending gardens, shoveling snow, caring for children, carrying papers, washing dishes, helping a neighbor with housework, raising flowers, vegetables, chickens, a calf or pets, making cookies or cakes or holding some of the lighter office or store jobs.

Food Odds and Ends

To many housekeepers it is a problem to know what to do with left-overs. But there are other housewives who make it a point to get these very odds and ends to season and dress up the next meals. Most families will, as a matter of habit and economy, eat up every last scrap of anything which is put on the table. The housewife who desires left-overs must take them out before she serves the remainder.

A half cup of rice is the foundation of croquets. A few peas make a big difference in tomorrow's salad or soup. A tablespoon of canned tomato soup flavors the mayonnaise dressing. Every particle of celery, tomato, green beans, gravy or cold meat will account for itself well in salad, soup, scallop, loaf, croquette or plain hash. If your family will not leave you left-overs, glean a few in advance.

Fashions, Fad, Faibles

The draped bosom makes the waist-line appear smaller. Aprons will be, not only kitchen accessories, but part of new style dresses. We are to wear short, white, crocheted gloves, reminiscent of the lace mits Aunt Sally used to sport.

The broad woman may look more slender if she chooses garments of up-and-down lines, stripes, and tucks; wears dark colors, small figures or plain materials, and soft fabrics which drape well or fall in easy, long folds. The V-neck gives her height, as well as buttons all the way down the front or back, skirt seams drawn back, and full length coats rather than short or hip-length. She should avoid much decoration and should dress simply, never wearing bulky jewelry or trimmings. Her gloves and bag should harmonize and never contrast with her costume.

Mother's Day Thots

She broke the bread and gave it to her children, who ate eagerly. "She has kept none for herself," grumbled the sergeant. "Because she is not hungry," said a soldier. "Because she is a mother," said the sergeant. —Victor Hugo

"A mother's arms are made of tenderness, and children sleep soundly in them."

Cake Variations

Bake your upside-down cake in an iron fry pan. First prepare the fruit in it as follows: Melt one-fourth cup butter, add a half cup brown sugar and stir until melted. Arrange your fruit in this, pour a plain cake batter over it and bake. When baked, turn onto a plate and top with whipped cream.

For fruit one may use peaches, pineapple slices, cooked dried apricots or prunes, apples, berries, any canned fruit drained from its juice. The fruit may be added to the batter, if preferred. The fruit may be omitted from your plain cake batter and, when the cake is done, it may be split and spread with whipped cream and the fruit.

A quick frosting may be made by spreading over a warm cake a mixture of three tablespoons of melted butter, a half cup of brown sugar, two tablespoons of cream and three tablespoons of shredded coconut. Place the cake, with this topping, under the broiler until the frosting is bubbly.

The "Buffalo Bug"

The carpet beetle, or "buffalo bug" as he has been named because of his black, fuzzy fur, is an immigrant, coming to this country in comparatively recent times from "the old country." He is most prevalent where carpets are tacked down and cover entire floors, thus affording him an undisturbed hiding place. If he is found in chests, trunks or closets which are not often open, sprinkle naphthalene flakes lavishly in these and he will disappear. If he attacks the felts of the piano or rugs in used rooms, spray these with a strong insecticide fluid or shake pyrethrum powder over them. Rugs may be drycleaned or scrubbed with gasoline. The floors should be wiped with gasoline, especially about the cracks, which should be filled with a crack filler or plaster of Paris. In handling gasoline, one should be mindful of its inflammability and take due precautions.

The Colorful Bathroom

To brighten the dreary bathroom, put cheery linoleum on the floor, paint the walls with a harmonizing enamel paint and hang colored towels on the racks and your family will come to "singing in the bathtub." The colors should harmonize. Perhaps you will choose lavender and green, yellow and blue, or wine and black.

Waste baskets, stools, curtains, bottles, shelves, hampers and all sorts of accessories may lend their quota of color and complete the scheme. An advantage of having a conservative or a white basic color tone and adding the gaiety through the accessories, is that you can easily change your color scheme if you tire of it.

Flower Suggestions

Such a wide variety of blossoms are offered in the seed catalogues that it is sometimes hard to make a selection. Favorite annuals are: verbena, phlox, portulaca, petunia, poppy, snapdragon, larkspur, zinnia, cornflower, Sweet William, marigold and aster.

These species may be put in a great many places: in front of shrubbery, against a fence, along walks and wall, beside the house, among perennials and in little unthought of corners. Plant them thickly and thin them later rather than having them come up sparsely.

Iron In Foods

The red color of the blood is largely due to iron in the diet. This mineral element is found in most foods, in greater or less proportions, and is particularly valuable in lean beef, oysters, eggs, whole grain foods as garban bread and oatmeal, fish, dates, molasses, raw cabbage, spinach and other fresh fruits and vegetables.

GINGERBREAD

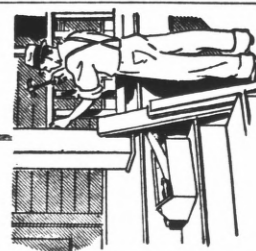

Mix a cup of sour cream, a cup of dark molasses, an egg, a teaspoonful of soda dissolved in a little water, a teaspoonful of salt and a heaping teaspoonful of ginger. Stir batter well and turn into greased cake pan. Bake in a hot oven.

For quick results—use Newspapers.

MASHED CARROTS

Wash the carrots thoroughly and scrape them. Boil till tender in milk and salted water. Take out and drain.

mash them fine and add a generous chunk of butter. Salt and sprinkle with black pepper. Serve piping hot.

These FISH are in the SOUP

—and they make an inexpensive meal-in-itself dish

By Dorothy Greig

LITERALLY, I suppose that fish chowders belong to the soup family. But when a chowder is made with enthusiasm it is so thick with clams or oysters or pieces of fish that

Clam Chowder—thick with clams, potatoes and onions and spiced with ripe tomatoes is practically a meal in itself.

it is not just a starter for a meal. It is almost the meal itself. Served with fresh crusty bread, a crisp green salad and a bit of fruit, what more could any hungry soul ask of a meal?

At our house a favorite supper dish is oyster stew. But it is oyster stew with a difference because it has tomato in it. It is made this way:

Tomato-Oyster Stew
4 tablespoons butter
1 tablespoon onion, grated or finely chopped
1 pint oysters and oyster liquor
1½ teaspoons salt
½ teaspoon pepper
¾ cup milk, scalded
¾ cup condensed tomato soup, heated

Cook the grated or very finely chopped onions in the butter. Pick over the oysters, removing bits of shell, then drain and reserve liquor. Add the oysters to the onion and butter with the salt and pepper. Cook until the oysters are plump and the edges begin to curl. Next add the hot milk and oyster liquor, and heat to the boiling point, but do not boil. Then add the hot condensed tomato soup. Mix and serve at once with crackers. Serves 4-6.

This next fish soup is one that can be served any time because the makings are usually on hand on every woman's shelf.

Easy Fish Soup
2 cans condensed tomato soup
2 cans of water
2 teaspoons grated onion
1 cup flaked salmon
2 tablespoons butter
Combine the soup with water. Add grated onion and bring to boil. Add flaked fish. Remove from fire.

Saturday Supper Clam Soup
1 can condensed clam chowder
1 can condensed consommé
1 can water
Combine the clam chowder with the consommé. Then add 1 can of water, using the soup can for a measure. Heat and serve. Serves 4-6.

SUMMER CAMPS CAN NOW INSTALL SEWAGE SYSTEMS

Because of the difficulties encountered in providing for proper sewage disposal, many Summer cottages, camps, and farm dwellings where additional toilet facilities are needed have not been improved by these additions, according to Federal Housing Administration officials.

A number of improved disposal systems are on the market today for houses that do not have city sewer connections but which operate with full efficiency.

The prevailing rural sewage system consists of a septic tank, leaching chambers, and filtration fields. Other features which permit automatic and efficient operation are a diverting gate, siphon, special tilting, and fittings.

Operation of disposal systems is simple. The tank may be a reinforced concrete of metal air-tight chamber and should not have to employ any chemicals. Filtration fields consist of at least two sets of tile lines designed to let air reach the sewage and permit uniform seepage to the soil.

Broiled Beefsteak With Boiled Oysters

Boil a pint of oysters in their liquor over a slow fire; when slowly boiling drop in three pats of butter; stir in about half a tablespoonful of flour and boil until it thickens; season to taste. Select a medium steak and broil. When broiled, pour hot oysters over it, and serve. Sprinkle with black pepper and paprika.

BAKED BEANS

Wash 4 cups of white beans and put to soak in water several hours, or over night. Put in pot and boil with several slices pork until beans are tender, but not too soft. Then add salt to taste, a half cup of brown sugar and a half-cup of molasses. Put in a good oven and bake until a rich brown.

FRICION-FREE OPERATION FEATURE STRESSED BY ELECTROLUX

"Believing that the most important thing about any automatic refrigerator is its principle of operation, Electrolux stresses the feature of having no moving parts in its freezing system," says H. E. Hunsaker, of the Furniture Exchange, county dealers for Electrolux.

The Furniture Exchange is participating in the Appliance Exhibit at the Homecraft Institute and Electrolux models may be inspected at their booth, or at their store on Main Street opposite the Empire Theatre.

"The Electrolux operates by using a tiny gas flame," Mr. Hunsaker says. "There are no moving parts in the freezing system, hence no friction. There is nothing to wear out."

"Combining the convenience and service features that a housewife expects in any standard refrigerator, we feel that the Electrolux has a greater appeal because of its friction-free operation and the assurance of permanent silence."

"The idea of using a tiny flame to produce constant cold may seem a strange one at first, and yet the Electrolux is in operation today in more than a million homes, giving permanent satisfaction. The flame circulates the refrigerant, producing constant cold and freezing sparkling cubes of ice without friction and without noise."

"Some refrigerators are alternately operating and then not operating according to temperature changes, but not the electrolux. It operates continuously, constantly, giving you the fullest protection every minute of every day and night for the food you eat."

"SPRING SPECIAL"—BERRY PRESERVES WITH BISCUITS

Take a pound of nice ripe berries; add a pound of granulated sugar. Mix together in an enameled kettle or pan and put on stove. Cook slowly until they come to a boil—about 20 minutes. Lift out berries with a skimmer and put in heated fruit jar. Leave a little space at top of jar. Then bring the juice left in the kettle to a boil for four or five minutes. Pour it hot over berries in jars. They should be sealed while hot and kept in a cool, dry place. My, but they're delicious that way!

And when you've made up a batch of strawberry preserves, don't forget, it tastes the very best with biscuits made like this:

It takes a pint of sour milk, a quart of sifted flour, and a chunk of butter twice the size of a walnut. Rub the flour and butter twice the size of a walnut. Rub the flour and butter together and add about a teaspoonful of salt; then mix this into the sour milk. Be sure to dissolve a teaspoonful of baking soda and stir this into the milk while you add the flour. Then you must knead up the dough quickly (don't handle it too much); roll out and cut with a biscuit-cutter. Bake in a quick oven.

MAKE YOUR NEXT PARTY A "COFFEE AND..." IT'S EASY

Have you had a "coffee"? It's the new smart way to entertain—and the simplest one to even date! It's the easiest (and sh. least expensive) way to entertain your married friends and the happiest version of the so-called "hen-party" since bridge and thimbles came in.

There are two kinds of "coffees"; for the evening variety, invite your friends to come in after dinner for just "dessert and coffee." The daytime "just us girls" coffee is held during the day—and now it's clever to hold it in the morning, after shopping and before lunch! You serve "coffee and..." of course, and the "and" may be anything good that goes with our country's favorite beverage.

For either occasion, there must be plenty of coffee—and please, please, it must be good, and hot, and strong enough. Use enough coffee—a heaping tablespoon to each measuring cup of water; use a clean (scrubbed) pot; use freshly boiling water; serve your brew immediately, and never reheat. Be prepared for "seconds" and ready for conversation, and compliments!

FISH CAKES

Mix 2 cups flaked fish (any cooked white fish or salmon) with 1 large onion, finely minced, ¼ teaspoon salt, one-eighth teaspoon of pepper, 1½ teaspoon paprika and 1 or 2 eggs, well-beaten. Form the mixture into small round cakes. Melt ¼ cup butter in a baking dish, roll the fish balls in this and bake in a hot oven until they are nicely browned. Serve with tomato sauce or a not-too-rich white sauce to which finely minced parsley has been added.

Something "Special" For The Cookie Jar

"Have you got a cookie jar? Years ago a woman never thought of letting the cookie jar get empty. This is the way she made one very popular kind: Sand tarts:—Use 2 cups of butter creamed, 3 cups of brown sugar, 5

eggs; flavor with one teaspoonful of maple flavor; about 6¼ cups of flour (enough to roll). Let dough stand over night, then roll out to about ¼ inch thick (or as thin as you can roll it). Use cookie-cutter, or cut in fancy shapes. Brush tops of cuts with white of egg, sprinkle with sugar and chopped black walnuts. Bake in hot oven.

DRY CLEANING!

"Yes Indeed!"

Says Jane Barton:

Your wardrobe IS an important part of the Home Economics Program

— and —

you'd be surprised how spic and span garments you were thinking of discarding can be made to look, at very little cost, by sending them to the

"MURDER SYNDICATE" PROBE TURNS TO WEST COAST

PHILADELPHIA (UP)—Investigation of the murder-for-insurance syndicate spread to the Pacific Coast today as authorities abandoned the theory that the "brains" of the death ring already was in custody and concentrated on efforts to trap the "big shot."

"We have about discarded the theory that Herman Pettrillo and Cesare Valento are the big shots," said Captain James Kelly of the homicide squad. "We believe Pettrillo can tell us who the real big shot is, and that ultimately he will give us his name. And we believe that when we get to the top and the bottom of the mystery, our prediction of 100 deaths will be justified."

County Detective Louis Sachs was enroute to the West Coast, but authorities kept secret his exact destination and object of the trip. It was reported, however, that he was to investigate large life insurance policies that the syndicate obtained and rumors that the ring also did a "mail order" murder business.

2 New State University Branches Considered

SACRAMENTO, (UP)—The assembly committee on universities agreed today to consider proposed legislation to establish Fresno and Santa Barbara state colleges as branches of the University of California. The committee refused to act on a measure by Assemblyman Hugh Burns, D., Fresno, to set up Fresno State as a separate university.

Crystal Market, Groceries and Meats;

Pacific Gas & Electric Co., electric service.

FURTHER WPA ROLL CUTS ORDERED EFFECTIVE BY MAY 8TH

WASHINGTON, (UP)—Works Progress Administrator F. C. Harrington ordered a 200,000 reduction in federal relief quotas to bring WPA enrollment down to 2,600,000 persons by May 8.

The reduction, which follows a similar cut in April, was made necessary when Congress last month pared \$50,000,000 from President Roosevelt's requested \$150,000,000 deficiency relief bill to carry WPA until June 30, end of the fiscal year. These slashes will be followed by an additional 200,000 cut in June to bring total rolls down to 2,400,000 by July 1, beginning of the 1940 fiscal year.

FILM WORLD MOURNS MAN WHO SUGGESTED "BIRTH OF NATION"

HOLLYWOOD, (UP)—The motion picture industry mourned today the passing of Frank E. Woods, 79, the man who suggested 25 years ago that there were movie possibilities in a novel of post-civil war days called "The Clansman."

Producer D. W. Griffith took the suggestion and had Woods write the scenario. The picture was "The Birth of a Nation," one of the greatest films of all time. It earned \$3,500,000, a figure exceeded by only four pictures during the next 20 years. Mae Marsh and Henry B. Walthall became stars overnight.

Woods' funeral will be held in Hollywood cemetery Thursday with many of those who became famous in the pioneer film days in attendance.
